I have been a KLOVE listener since last April and it has been a tremendous encouragement to me. There is not another station in my area that plays nonstop uplifting music that is contemporary Christian music. Please don't make any changes that would cause me and the many other KLOVE listeners in my area to lose our favorite station. This station is meeting a need in this community that no other station is currently meeting. I think it is pretty awesome to be able to turn on the radio and hear a wonderful contemporary Christian song that puts me in a good mood, tells me how God loves me and encourages me and reminds me of God at any time of the day! There is no other station like this!!!!!
